Skills

Languages: Java, C, PHP, HTML, CSS e Javascript.

Frameworks: Laravel e Springboot.

Libraries: Tailwind, daisyUI, maryUI e Bootstrap.

Testing: JUnit e PHPUnit.

Tools: Git, Github, Gitlab e Lucidchart.

Databases: MySQL.

Best Practices: Scrum, Kanban, MVC, Clean Code e SOLID.

Professional Experience

Full Stack Software Development - Internship

Estágio

Controladoria Geral do Estado (CGE-MG) - Belo Horizonte, MG Aug/2024 - Present

I work on the development and maintenance of web systems, implementing new features, performing testing and bug fixing, as well as participating in meetings and code reviews following agile methodologies. I am involved with system integration, relational databases, technical documentation, and support in different projects, always focusing on quality, efficiency, and team collaboration.

Skills: Teamwork, Agile Methodology, Code Analysis, and Complex Problem Solving

Tools: PHP, Laravel, Livewire, Tailwind, Git, Gitlab, Lucidchart, DaisyUI, maryUI, MySQL e Laragon

Education

Bachelor's in Software Engineering

PUC MINAS - 6th Semester

Feb/2023 - Dec/2026

Relevant Academic Projects

GLET

PUC MINAS, Aug/2024 - Dec/2024

Developed a web system for AMITRAN, a company in the logistics sector, aimed at digitalizing and automating manual operational processes. The solution centralizes the management of employees, services, and vehicles in a single integrated environment, providing greater efficiency, control, and agility in strategic decision-making. It also incorporates a real-time performance dashboard, enabling improved productivity analysis, service optimization, and operational cost reduction.

Skills: Teamwork, Agile Methodology, Code Analysis, and Complex Problem Solving

Tools: JAVA, Springboot, React, Typescript CSS, Tailwind, Git, Github, Lucidchart e MySQL

Barber Flow

PUC MINAS, Feb/2025 - Jul/2025

Developed Barber Flow, a financial and operational management system for barbershops, enabling detailed control of revenue, individual earnings, and cash flow. The solution provides accurate reports to support decision-making, with an intuitive interface and focus on management efficiency.

Skills: Teamwork, Agile Methodology, Code Analysis, and Complex Problem Solving

Tools: PHP 8, Laravel 12, Livewire 3, CSS, MaryUI, Tailwind, Twilio, Git, Github, Lucidchart e MySQL

Languages

English: Basic (able to read and write simple sentences)

Spanish: Basic (able to read and write simple sentences)
